Welcome

Dear Colleagues,

This advanced course will cover the functional and aesthetic aspects of primary and secondary rhinoplasty, especially the aspects of augmentation and reduction rhinoplasty and tip correction.

We invited **Nazim Cerkes from Istanbul (Turkey)** and **Per-Olle Haraldsson from Stockholm (Sweden)** to take part in our panels and discussion.

We will demonstrate our concepts and techniques in primary and secondary rhinoplasty and show the surgical details by additional endoscopic view. Furthermore we will focus on the physiology and the tests to differentiate the pathophysiology for selecting the appropriate surgical technique.

We are looking forward to welcoming you here in Stuttgart.
